Special to the Indianapolis Journal. LAFAYETTE, Ind., Aug. 14.-A sensation was sprung late this afternoon when Albert S. Peacock, postmaster at Attica, through his attorneys, Stuart, Hammond & Simms, filed suit against the Wabash are in Muncie and this city. The plain- Report that Roosevelt's Aid Will Be tiff asks \$5,000 damages against the incorporators of the company. George M. Timberlake, Charles A. Meeker, William F. Murdock, Fred F. Murdock, Laban Sparks and Nicholas W. Box, all of this city, are

named as defendants. The suit is directed principally against Timberlake, who is associated with Louis G. Deschler in the cigar business in Lafayette. The plaintiff avers that he and Timber-

lake are cousins, have frequently visited each other and are on friendly terms and that Peacock acquired a belief in the business intelligence of his cousin, who on July 29 went to Attica, ostensibly to visit his relatives, "but in reality" says the complaint, "to deliberately cheat, swindle and defraud." It is averred in the complaint that Timberlake told his cousin that the Wabash Gas and Oil Company, according to his own personal knowledge, possessed 140 gas wells in operation; that the directors had declared a semi-annual dividend of 12 per cent. to be paid on Sept. 1; that William Riley McKeen, of Terre Haute, was considering the matter of buying up a majority of shares of the company, but the other stock-holders did not desire one man to obtain a monopoly, by virtue of which Timberlake was given an opportunity of placing his cousin within easy reach of a fortune. Through a host of alleged misrepresenta-tions Peacock claims he was induced to purchase 5,000 shares of stock at 25 cents a share. The complaint charges that the defendants have joined together to rob the public; that the Wabash Gas and Oil Com-

pany possess nothing but spurious and worthless stock; that the corporation has no assets or tangible property. The complaint charges that at the time Timberlake sold the stock to Peacack the company was then insolvent; that it did not own, nor ever owned, a gas well, nor did it have a contract with any city to furnish gas: nor did the company then own or at any time own \$120,000, as claimed by Timberlake: that Timberlake did not procure a block of stock from his uncle, as he represented, and that the entire process had been one of cheat and fraud. The complaint caused a sensation. The Timberlake family is well known in this city and Indianapolis and in other places in the State. The Wabash Gas and Oil Com-

Cullom and Ridgely Talk with Hin Concerning Financial Legislation and the Cuban Treaty.

HITCHCOCK AND LAUTERBACH SEE HIM ABOUT IT.

Nothing Known Concerning Report from Yokohama.

OYSTER BAY, Aug. 14.-Financial legislation and other work of the proposed extraordinary session of Congress were discussed to-day by the President with several of his callers. The first arrivals were Secretaries Shaw and Hitchcock, respectively of the Treasury and Interior Departments. In addition to some departmental questions which they desired to bring to the President's attention, they considered with him the suggestions made by the members of the Senate subcommittee on finance at their conference with the President on Wednesday night, particularly with regard to an extraordinary session of Congress at a date earlier than Nov. 9. Considerable opposition has developed to the idea of calling the extra session in October. The point is made that many senators and representatives will be engaged during October in their State campaigns and that it would be politically unwise for them to leave their States at such a time. It was announced to-day that no definite conclusion regarding the date of the extraordinary session ye has been reached, that no decision will be announced until the President shall have consulted members of both braches of Congress and others. At luncheon to-day the President and Mrs. Roosevelt entertained a party including Secretary Hitchcock, Senator Cullom, of Illinois, Controller of the Currency Ridgley and T. D. Byrnes, of Minneapolis. Senator Cullom and Controller Ridgely discussed the financial situation with the President with special reference to the necessity for currency legislation. Mr. Ridgely talked over with the President some of the features of his annual report to Congress. The opinion is expressed frankly that it is for Congress a difficult task to make cur-

Controller Ridgely is going to Pittsfield, Mass., for a few days' rest, while Senator Cullom will start to-morrow for Chicago. Secretary Hitchcock talked with the President about the Littauer-Lyon glove contract case; among other things, but said, before leaving for Washington, that it would not be proper for him to discuss the matter for publication at this time. Late this afternoon former Secretary of the Treasury John G. Carlisle, Dennis T. Flynn, for several years delegate from Oklahoma in the House of Representatives; Bishop Frederick Z. Rooker, who until recently was secretary of the papal delegation in Washington, and Edward Lauterbach, of New York, called on the Presi-

Mr. Carlisle's visit was on a private mat ter, but the President embraced the opportunity to talk briefly to him on the subject of financial legislation. Bishop Rooker called to pay his respects and to discuss with the President the situation in the Philippines. He is one of the four Amercan bishops recently appointed for service in the archipelago. He will sail for Manila on the 19th of September. Mr. Lauter-bach, who is one of the counsel for Representative Littauer in the glove contract investigation, discussed that matter briefly with the President, although his visit re-

lated also to another subject. Regarding the report from Yokohama that Prince Ching, of the Chinese Foreign Office, had obtained Russla's consent to the use of President Roosevelt's good offices in connection with the Manchurian difficulty, It can be said that nothing is known here. The President has received no intimation that he is even being considered as an arbitrator of the Manchurian troubles. Senator Cullom, commenting upon the Yokohama report, said he regarded it as decidedly unlikely that such a proposition would be made to President Roosevelt.

LONDON, Aug. 14.-Neither at the American nor at the other interested embassies is anything known regarding the statement made in last night's dispatch from Yokohama that Prince Ching had secured Russia's consent to the use of President Roosevelt's good offices in connection with the Manchurian difficulties. ### People of Jamaica in Danger of Starying-Loss Will Reach \$15,000,000.

KINGSTON, Jamaica, Aug. 14.-There are heartrending scenes all over the eastern and northern portions of the Island of Jamaica. At Port Antonio thousands of homeless and starving people have sought shelter in the old prison and the few other buildings which survived the hurricane. Those who could not be thus accommodated are cowering in the lee of ruined walls and dismantled piazzas. The railroad sheds and waiting rooms are filled with women and children. The merchants of the | Jett during the time he was corfined here place are feeding the hungry to the best of their ability, but the majority are depending upon green bananas knocked down by the storm. This is their sole food supply the explosive was sufficient to have blown and it will be exhausted in nine or ten days. Similar conditions prevail at Annotata Bay, Buff Bay, Orange Bay, Port Maria, Marchional, Morant Bay, Bowden and other smaller seaports. In the interior the distress is equally acute. The homes of the peasant families

have been literally blown away and they are contriving rude shelters from fallen trees, palm boughs and banana leaves. Owing to the continued unsettled weather, with occasional torrential rains, these shelters afford practically no protection. Efforts are being made at Kingston to relieve the immediate wants of some localities by subscriptions of food and clothing. but the local efforts at best are totally inadequate. Unless immediate shipments of foodstuffs come from America, deaths by

starvation are inevitable. The local hospitals in the wind-swept districts are crowded with the injured and the death list is increasing. Some localities have not yet reported. One man was beheaded at Port Antonio by a flying sheet of galvanized roofing. Many were seriously wounded by falling houses, trees and walls. Several houses located on the banks of the streams were carried away by the floods. The fate of their inmates is unknown, but it is feared that there have been many

deaths from this cause. The bulk of the Blue Mountain coffee has peen ruined and the pimento groves, which stood for centuries, have been obliterated. It is now estimated that the loss on the

Also Hope for a Pardon-Believed That the Verdict Is in Nature of a Compromise.

CYNTHIANA, Ky., Aug. 14.-Curtis Jett and Thomas White were to-day found guilty of the murder of J. B. Marcum at Jackson, May 4, and sentenced for life. At their trial in Jackson last month one juror nung the jury to the last on the question of guilt and this time one juror hung the jury for twenty-four hours on the question of sentence. The first ballot was eleven to one for conviction of both defendants and the second was unanimous for both. The first ballot on the sentence was seven for death and five for life imprisonment. The separate ballots on Jett's case stood eleven for hanging and one for life sentence and this result was not changed in subsequent votes, Jaspar King, ex-deputy sheriff, voting alone until a compromise was reached for life sentence for both.

The verdict was returned at a time when there were but few persons in the courtroom. The only attorney present was County Attorney Webster.

The verdict occasioned little surprise here after the deliberation of the jury had been so prolonged. The only question which caused the delay, it is said, was that of punishment, death or life imprisonment. The case has been on trial almost three weeks, having been begun July 27. At the first trial at Jackson the jury disagreed and it is believed that the verdict to-day was a compromise with a juror opposed to capital punishment. The friends of Capt. L. They expected the death penalty, which they were confident would have been followed by confessions from the condemned men exposing parties high in authority in Breathitt county, who are considered to be back of the

Jett is still under indictment for first degree murder for killing Town Marshall

Jett maintained his composure on hearing the verdict, as much as ever, while White was greatly affected. Jett said last night the rope had never been made with which to hang him, but he made no remarks today. His friends say he will have a new trial, and if he fails in the effort he may be pardoned in the course of time. The friends of the defendants showed such relief as to leave no doubt of their previous apprehensions of the death penalty. During the afternoon Judge Osborne heard the motion of the defense for a new trial. The grounds set forth consist of oblections to evidence admitted for the commonwealth and rejected for the defense, and also to the ruling out of affidavits made by the defendants, saying that a fair and impartial trial could not be had on account of the military display, which inflamed the public mind. The attorneys for the prosein consultation during the afternoon and to-night as to whether they will oppose the motion for a new trial as to Jett, as they say if they can get a new trial in his case they will have enough new evidence to convict. Struck by Falling Beam. Robert Hall, a colored man living at North and Blake streets, while employed at the new building under construction for the New York Store, on Washington street, was severely injured yesterday afternoon by a falling iron beam which struck him on the left leg. No bones were broken, but the leg was so badly lacerated that it was necessary to remove him to the City Hospital. Drs. Cunningham and Seaton attended to the man's injuries and took him to the hospital in the Dispensary ambu-

# MORTON CLUB IS LOYAL

WILL GIVE HEARTY SUPPORT TO THE CITY TICKET.

Story that It Was Giving Lukewarm Assistance Indignantly Denied in Letter to the Journal.

The O. P. Morton Club, one of the wellknown Republican organizations of Indianapolis, has sent a communication to the Journal denying the report that the club is not supporting the Republican city ticket. The same as in the past, the club says, it will continue loyally to support the Re-publican nominees. Following is the text of the communication: "It has lately come to our knowledge that the impression prevails that the O. P. Morton Club is not supporting the Republican nominees for city offices as it

should do as a Republican organization. row morning by Rev. H. H. Hulsten, pastor The O. P. Morton Club is sufficiently known to all voters of Indianapolis to make a denial of any such statement unnecessary. "This club has been an active factor in Republican politics for nearly eight years, and will continue to be in the future as it has been in the past-loyal to Republican nominees. The constitution of the club provides that as a club it shall not inc any man or set of men for nomination, but the nominations once made, it also proyides for loyalty to the ticket nominated.
"This provision has never been violated and never will be, no matter in whose interest requested. This club, situated in a Democratic stronghold, has for eight years fought for Republican principles and candidates, and we cannot see how an im-pression like the above could find any believers among those who are acquainted with our club and its work in the past. In connection with this explanation we desire to state that the club is ready and will use all honorable means to help elect the Republican ticket next October. In justice to ourselves as members of the O. P. Morton Club we deem it necessary to make this explanation in order to set at rest any false rumors which have been cir-culated by some evil-minded person or persons, and you would confer a great favor on every member of this club by publish-ing this explanatory letter in the columns of the Journal."
